

Ace Heart Relano

AI Engineer | E-commerce & ERP Developer | Technical Project Lead

Pampanga, Philippines | relano.aceheart@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFILE

E-commerce and ERP developer with experience building and maintaining BigCommerce storefronts, developing an independent Odoo 18 Commerce implementation, and leading technical evaluation across pricing, configurable products, integrations, and staging infrastructure. Building AI engineering foundations through hands-on LLM, RAG, and data-focused coursework.

CORE SKILLS

AI engineering foundations: Python, LLM applications, RAG, LangChain, Chroma, Hugging Face, Ollama, QLoRA fine-tuning

E-commerce and ERP: BigCommerce, Odoo 18 Community, Acumatica 2022 R2, configurable products, pricing hierarchies, quantity discounts

Development: JavaScript, TypeScript, React, Node.js, HTML, CSS, REST APIs, JSON, PostgreSQL

Cloud and delivery: Azure, Docker, Windows Server, SQL Server, IIS, GitHub, Vercel, cross-browser QA

PROFESSIONAL EXPERIENCE

Web Developer

Racetrax | Remote, Ontario, Canada | Jan 2021 to Present

- Rebuilt and maintain the company e-commerce website on BigCommerce, including storefront layout, content, and custom HTML, CSS, and JavaScript updates.
- Lead technical evaluation and testing for e-commerce and ERP initiatives, communicating pricing, integration, and implementation risks to stakeholders.
- Set up an isolated Acumatica 2022 R2 Azure staging environment, including Windows Server, SQL Server, IIS, snapshot restoration, customization publishing, access coordination, and handoff support.

Graphic Artist, CV Services Group (Shore 360) | Jun 2020 to Jan 2021 | sign visualizations, client mockups, production-ready design assets

Graphic Artist, Office Beacon Philippines Inc | Apr 2018 to Jun 2020 | vector graphics, product mockups, visual asset management

Customer Service Representative, Sutherland | Oct 2017 to Apr 2018 | Microsoft product support, order handling, and transaction records

Associate Software Engineer Trainee, Cloudstaff | Nov 2016 to Mar 2017 | HR web application bug fixes, feature work, QA, and Agile delivery

SELECTED PROJECTS

Odoo 18 Commerce Platform | Independent implementation

- Built a public-safe Odoo 18 Community commerce demo with server-side pricing, configurable kits, product aliases, quantity discounts, and an end-to-end order workflow using synthetic data.

BigCommerce and Acumatica Integration | Technical evaluation

- Evaluated platform APIs, customer-class pricing, quantity-break requirements, event-driven approaches, failure modes, and data ownership. No middleware or webhook implementation is claimed.

Acumatica Azure Staging Environment | Environment implementation

- Prepared a controlled Acumatica 2022 R2 staging environment for isolated testing, customization validation, and approved stakeholder access.

EDUCATION AND PROFESSIONAL LEARNING

Bachelor of Science in Information Technology | Don Honorio Ventura State University | 2013 to 2017

AI Engineer Core Track: LLM Engineering, RAG, QLoRA, Agents | Udemy | July 2026 | [View credential](#)

The Data Analyst Course: Complete Data Analyst Bootcamp | Udemy | June 2026 | [View credential](#)

The Complete ASP.NET MVC 5 Course | Udemy | December 2020 | [View credential](#)
